

Mini Workshop

WP2: Head and Neck Diseases

Tuesday, October 17th, 2017

8h30 Welcome

8h45-9h Paul Hofman, Joël Guigay & Ellen Van Obberghen-Schilling: *Introduction/objectives and WP research landscape.*

Session I. Thyroid diseases and Epigenetics

Chairpersons: José Santini and Jean-Louis Sadoul

9h00-9h30 Sylvie Chevillard, Fontenay-aux-Roses: *Molecular signature of thyroid cancers induced by ionizing radiation.*

9h30-10h00 Colette Zwarthoed, Nice: *Regulation of thyroid function to be integrated during iodine 131 radiotherapy*

10h-10h30 Zdenko Herceg, Lyon: *Epigenetic Mechanisms in ENT cancers*

10h30 - 11h Coffee break

Session II. Clinical studies dedicated to elderly patients

Chairpersons: Olivier Guerin and Rabia Boulahssass

11h-11h30 Joël Guigay, Nice: *Ongoing ELAN trials and perspectives*

11h30-12h Cécile Mertens, Bordeaux: *First results of ELAN ONCOVAL trials and future projects*

11h30-12h Rabia Boulahssass, Nice: *PACA EST cohort studies*

12h30 - 13h45 Lunch

Session III. Immunotherapy in head and neck cancer: mechanistic and clinical perspectives

Chairpersons: Frédéric Peyrade and Véronique Braud

14h-14h30 Esma Saada, Nice: *Open and Upcoming Clinical Trials in head and neck cancer*

14h30-15h Pierre Saintigny, Lyon: *Genomic and microenvironment driven personalized medicine in patients with recurrent/metastatic HNSCC*

15h-15h30 Fabienne Anjuère, Valbonne: *Immune regulation in the tumor microenvironment: Lessons from an immune competent murine model of squamous cell carcinoma*

15h30 - 16h Coffee break

Session IV. Perspective studies in Head and Neck Cancer

Chairpersons: Jérôme Doyen & Ellen Van Obberghen-Schilling

15h45h-16h15 Karen Benezery, Nice: *Role of Proton Therapy in Head and Neck Squamous Cell Carcinoma*

16h15h-16h45 Alexandre Bozec, Nice: *Functional outcomes and quality of life after head and neck cancer surgery*

16h45h-17h00 Charles Raffaelli, Nice: « *Pôle Imagerie, Département d'Ultrasons* »

Conclusions
